

A DAWSON DOOR PRODUCT:

RETAIL SERIES

CUSTOM CRAFTED OPTIONS & TECHNICAL SPECIFICATIONS

A PREMIER AMERICAN METAL FABRICATOR SINCE 1946

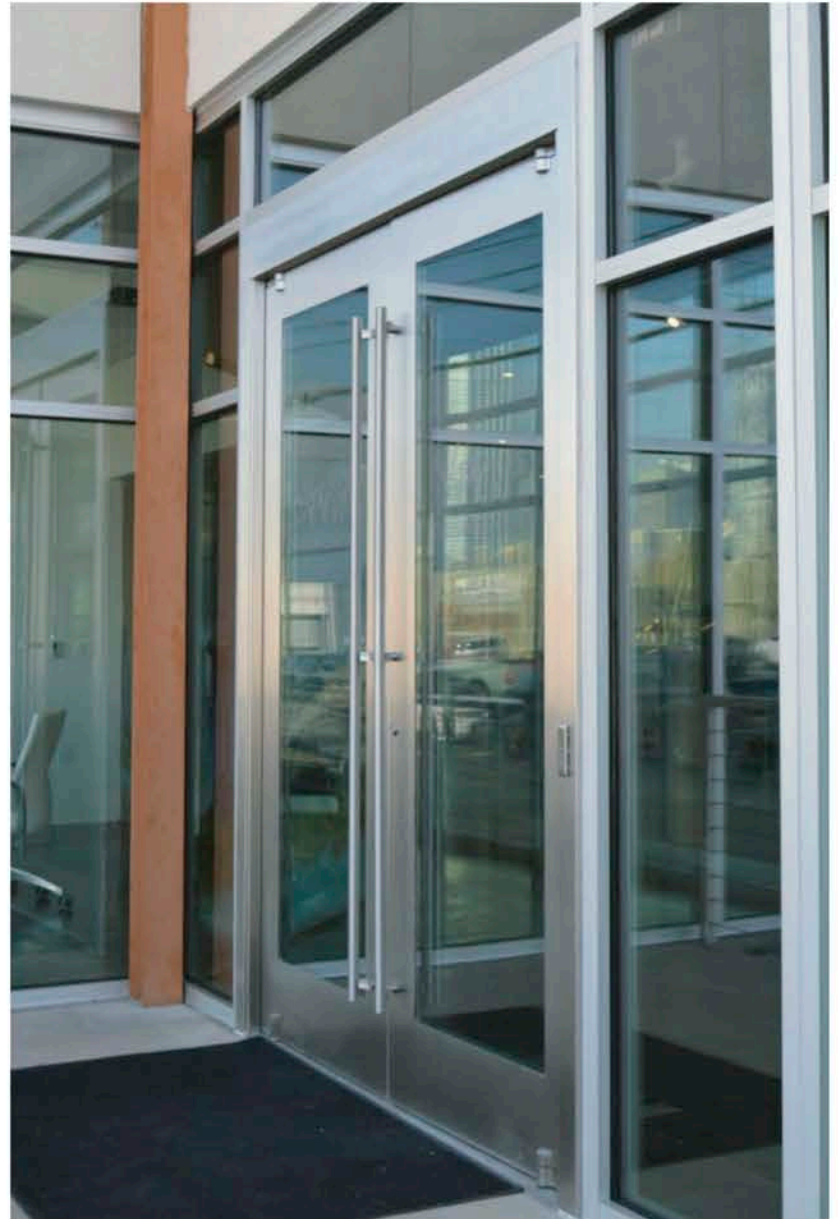

DAWSON

DOOR PRODUCT /

RETAIL SERIES

As a cost-effective alternative to clad aluminum products, Dawson now offers our Retail Series doors. These doors are laser cut from single sheets of material creating a truly seamless door face with no face welding. Retail doors are assembled with a rigid 'ladder type' structural internal framework and are assembled through adhesion-tested 3M liquid weld certified products. Unique to Dawson are surface applied brake formed glass stops at the interior and exterior with no exposed fasteners, (painted finishes are also available). Each project is custom engineered to meet even the most demanding design specifications.

Premier Design Center, Dallas, TX, United States

KEY FEATURES

Discover the product features and technical specifications below to see if the Retail Series is the right fit for your next project.

CUSTOM OPTIONS
