

A DAWSON PRODUCT:

# CUSTOM THRESHOLDS

CUSTOM CRAFTED OPTIONS & TECHNICAL SPECIFICATIONS

A PREMIER AMERICAN METAL FABRICATOR SINCE 1946

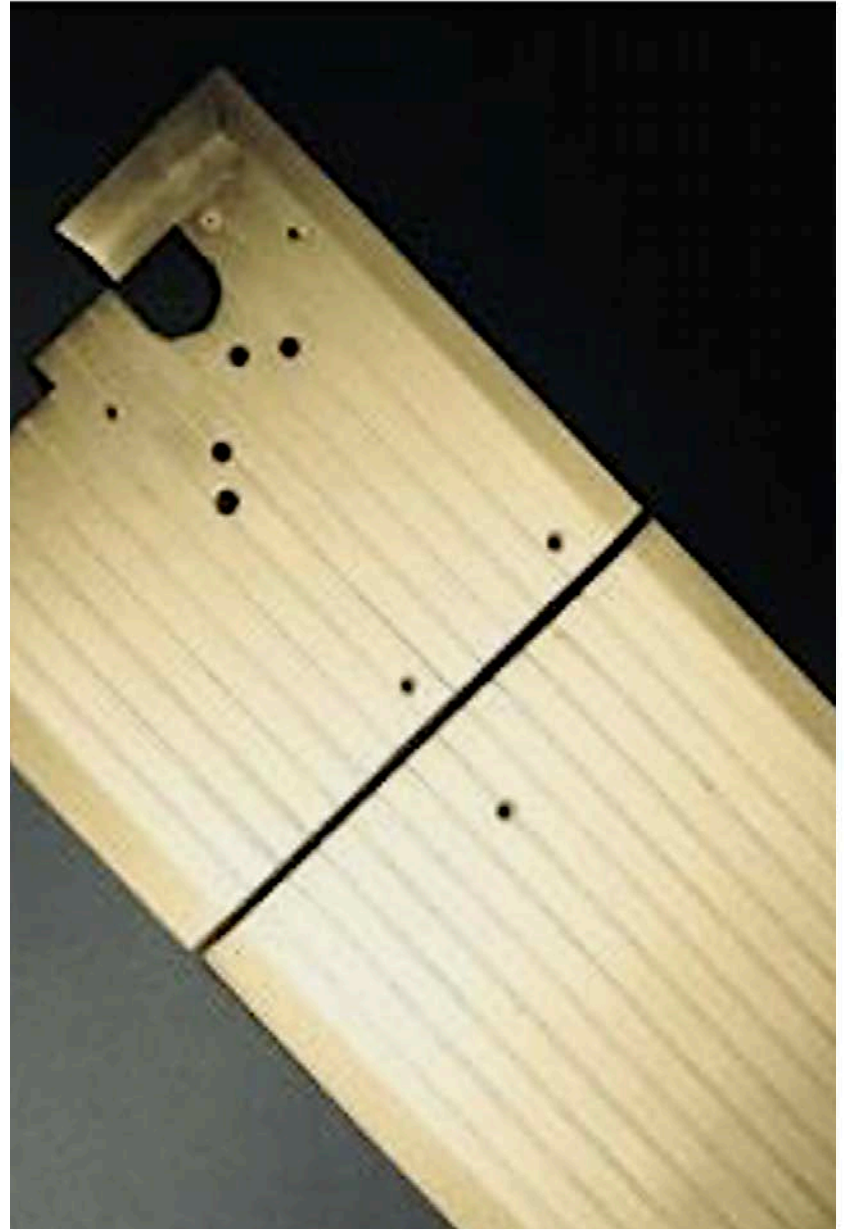

# DAWSON

## CUSTOM THRESHOLDS

Dawson Custom Thresholds can be fabricated from stainless steel or brass, and include all necessary support channels and anchors. Thresholds can be manufactured in any specified width, up to 120" long (one piece), and are ADA compliant at 1/4", 3/8" or 1/2" high. Thresholds are available with a factory applied #4 satin finish (US32D/US4). Hardware preparation, return miters/ returned closed ends, and door jamb notches are available on all threshold types. Custom machined plate thresholds are also available and can be supplied with a Slipnot finish upon request.

Type 300 Threshold, prepped for Rixson 27 Floor Closer

## KEY FEATURES

Discover the product features and technical specifications below to see if our Custom Thresholds are the right fit for your next project.

### CUSTOM OPTIONS

Choose stainless or brass and between a variety of finishing options to achieve your desired threshold look.

### BEST-IN-CLASS COMPONENTS

Strong, durable and corrosion-resistant materials protect against all conditions.

### 2 YEAR WARRANTY

Dawson stands by its quality engineered products, offering two years of warranty.

## TECHNICAL SPECIFICATIONS

- Custom sizes and configurations to meet project requirements
- All required hardware preparations included
- ADA compliant
- Every project completely detailed using solid modelling package to ensure end product meets strict tolerances and is built to customer's high expectations.
- Easily integrated with bottom pivots, floor closers and in-floor auto operators
- 2 year warranty
- Manufactured from 0.060" thick with sub-channel supports to achieve .125" O.A. thickness fabricated from Stainless Steel or Bronze as required to meet project specifications.
- Also available as custom manufactured from 0.25" thickness to maximum of 0.500" thickness Stainless Steel, Bronze, or Aluminum (up to 10' wide x 12' deep).

## AVAILABLE FINISHES

### BRASS

No. 4 Satin (US4)

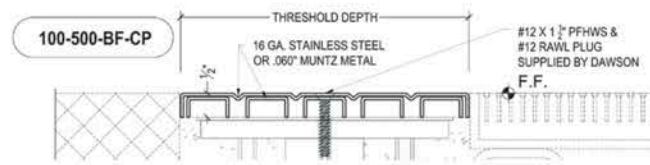

### STAINLESS

No. 4 Satin (US32D)

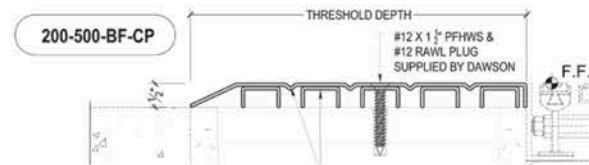

### TYPE 100

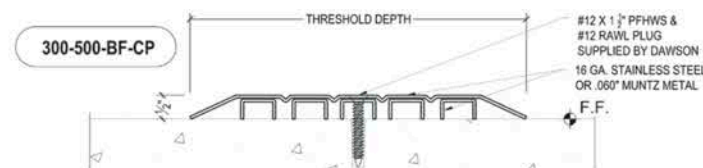

Excellent choice when a floor transition occurs on both sides of the entrance and a recessed type threshold is required

### TYPE 200

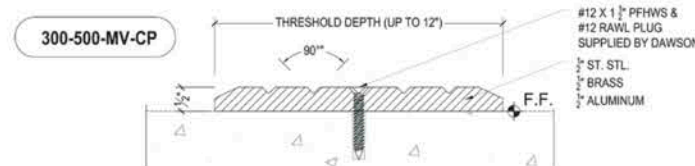

Best choice when a floor transition occurs on interior side of the entrance (walk off mats, carpet, or tile).

### TYPE 300

Standard saddle type threshold best used on flat, solid floor types

### MACHINED THRESHOLDS

Recommended when large voids in the flooring material are present (such as expansion joints or poured curbs) and standard thresholds might collapse — strength and rigidity are key features of this threshold type. Available with slipknot finish.

# DAWSON

A family-owned and operated business since 1946, Dawson Doors is the leading manufacturer of high quality architectural products offering balanced and standard swing doors and entrances. Our products are manufactured from the highest quality stainless steel and bronze materials. We provide exquisite entrances to some of the most prestigious buildings around the country and throughout the world.
