## TRANSCEND THERMALLY BROKEN ENTRANCE

A PREMIER AMERICAN METAL FABRICATOR SINCE 1946.

[WWW.DAWSONMETAL.COM](http://WWW.DAWSONMETAL.COM)

" Dawson really has the engineering and design nailed. Dawson doors are very sophisticated and usually quite conservative in design. But this one, really blows away anything else on the market in looks and design. They really did the homework on this one.

## TRANSCEND THERMALLY BROKEN ENTRANCE

YOUR BRIDGE TO COMPLIANCE.

Foremost architects specify premium materials for their projects. When it comes to satisfying clients who are looking for sophisticated, energy-efficient doors, architects specify Dawson.

The Transcend system exceeds all other high-end thermally broken entrances on the market. With a stellar reputation for quality and durability, Dawson provides a relevant and versatile design with a thermal break that boasts the industry's lowest U-Value for energy loss.

Transcend thermally broken entrances meet or exceed all American Society for Testing and Materials (ASTM) standards while remaining customizable. Its innovative, beautiful, and highly functional construction benefits the performance of the building while its fully-assembled construction saves the customer time and money on installation.

## KEY FEATURES

⊕ OUR QUALITY IS UNMATCHED

Energy efficient, long-lasting doors that you can use, with the insulative value and superior materials you're looking for.

⊕ CUSTOM DESIGN

We are eager to custom-make a beautiful entrance to suit your needs. Consult our factory for options.

”

I work in Metro New York with some of the best architects. It's very exciting for me to be a part of complicated and unique projects, and Dawson's design, engineering, and fabrication professionals feel the same way.
